

In Ohio, There is no Such Thing as a Dumb PASRR or LOC Question

It took some time, but It's Finally Finished!

Our new Publication, In Ohio, There is no Such Thing as a Dumb PASRR or LOC Question

is now available. It is over 275 Questions & Answers on ten different topics.

Thanks to all those who have purchased the book. We have received some great feedback on it.

Our publication, In Ohio, There is no Such Thing as a Dumb PASRR or LOC Question, was constructed to provide real life examples of how the Ohio PASRR and Level of Care process is administered. As you may be aware, the PASRR and LOC rules are found in the OAC (Ohio Administrative Code). However, if you have a question such as, " Is a 7000 Hospital Exemption form required for a transfer for an individual from one Medicaid certified NF to the hospital and then to another Medicaid certified NF?" you can search all the rules all day and never find it. You usually need to contact a person in Preadmission Review to get your answer. However, now with our book you can locate it for yourself in a quick manner.

Over the years, the Professionals affiliated with www.longtermcareohio.com, Ltd. have received several questions on the Ohio PASRR & LOC process. They have answered them and have also archived them for use in the book. The goal of the book is to help other Professionals who deal with PASRR & LOC on a daily basis find the answers to questions they need to facilitate a more efficient admission for their clients to Ohio Medicaid certified nursing facilities.

We continue to collect the Q & A and will look toward producing future editions.

Keep the questions coming!
